

What the week looks like

SUMMER IMPACT TRIPS

Cost of each trip will not exceed \$2,500

The heartbeat of both trips is the same. To go to the 'least of these' among the nations, and bring the hope of the gospel of Jesus!

Costa Rica

July 4-10, 2027

Hope Partners International serves children and families in Pavas, San Jose. Its Hope Center provides meals, education, mentoring, and discipleship throughout the year.

Activities may include:

01 Children's camps

Help lead Bible lessons, games, crafts, and worship while building friendships with children at the Hope Center.

02 School & community projects

Pitch in with painting and other practical projects identified by Hope Partners to support local schools.

03 Prayer walk

Take a guided walk through Pavas to understand the extreme poverty and hopelessness many families face. Most of all, pray for God to move in the community and bring the hope of Jesus.

Dominican Republic

July 3-9, 2027

410 Bridge emphasizes "being" over "doing": being present, building real relationships, encouraging the community, praying, and loving people like Jesus.

Activities may include:

01 VBS

Run games, crafts, and activities with local students, building friendships and encouraging them.

02 Home visits

Visit families in their homes, pray with them, and speak life and encouragement into their households.

03 People-focused service

The week centers on people, so we may not have a physical work project. The in-country team and local Leadership Council are planning the details.
